Date: Thursday 9th April, 2020
Re. Easter Message

Good morning all,

This week is a sacred time when we would normally come together as Christians to celebrate the Easter liturgies. It is unfortunate we are unable to do this due to current social isolation measures and travel restrictions.

Despite the difficulties and uncertainty we would all be experiencing, the current circumstances may be seen as an opportunity to more personally identify with the suffering of Christ and to deepen our faith. As appropriate, we can do this individually, with family and with other members of our faith community.

Our faith can be nourished and kept alive in prayer as we come together as families to read and reflect on the Passion, Death and Resurrection of Christ. Despite the difficulties, we recognise Christ and are able to remain in communion with Him and draw closer to each other.

Due to government restrictions on gatherings, please contact your parish priest to enquire about how Easter liturgies may be viewed or accessed in your parish.

Let us remain united in prayer for each other, those experiencing hardship, the frontline workers and victims of this pandemic.
